EDUCATION

Indian Institute of Information Technology Raichur

Raichur, Karnataka

B.Tech in Computer Science and Engineering; CGPA: 8.30

Aug. 2024 – May 2028

- **Relevant Coursework:** Design and Analysis of Algorithms, Computer Architecture and Organization, Probability, Data Warehousing, Database Management Systems, Operating Systems, Compiler Design

LEADERSHIP & EXPERIENCE

Core Member, Mathematics Club

Aug. 2025 – Present

Indian Institute of Information Technology Raichur

Raichur, Karnataka

- Typeset weekly mathematics problem using LaTeX, ensuring precise mathematical notation and professional document formatting for club members.
- Organized and executed the evening rapid fire quiz for Pi Day 2026
- Collaborated on the publication of the semesterly mathematics magazine, assisting with content curation, proofreading complex equations, and finalizing the digital layout using Canva.

Core Member, EHACS Club

Feb. 2025 – Present

Indian Institute of Information Technology Raichur

Raichur, Karnataka

- Actively participate in club activities and contribute to the planning of cybersecurity-focused events and workshops
- Planned and executed club sessions and CTF-based Treasure Hunt event.

PROJECTS & RESEARCH

High Capacity Color 2D (HCC2D) QR Code Implementation | C/C++

Jan. 2025 – May 2025

- Conceptualized and created an implementation of HCC2D QR codes utilizing different color spectrums
- Successfully increased data density compared to standard black-and-white QR codes using C/C++

GigTrust | Flutter, Rust, JavaScript, Node.js, MongoDB

Aug. 2025 – Dec. 2025

- Developed a blockchain-based platform for gig workers to ensure fair compensation and trust between employers and employees
- Implemented smart contracts in Rust to freeze funds until mutual agreement is reached on the completed work
- Built a cross-platform mobile application using Flutter with a backend managed by Node.js and MongoDB

TECHNICAL SKILLS

Languages: C, C++, Python, Rust, JavaScript, SQL, Scheme, Bash, Fish

Frameworks: Flutter, Node.js, Ratatui, Pandas, Numpy

Developer Tools: Git, Docker, Linux

Databases: MongoDB, MySQL
